AKCELİK

STRONGER TOGETHER

Your global solution partner in the High-Quality Steel Industry.

AKCELIK BLANKSTAHL

TRISTARSTEEL SHAFTS CRAFTED FOR MOTION

SCHWERT TOOL STEELS

To meet the expectations on a global scale, **we produce high-quality bright steels of qualified qualities.**

We provide instant solutions to the demands of the sector with our strong stock structure and supply network and prevalent service centers and services.

Your global solution partner in the High-Quality Steel Industry.

Akçelik started its commercial activities in Izmir in 1978.

Continuing its activities and investments in the high-quality steel sector with its 45 years of experience, Akçelik carries out its activities with the principle of operational excellence.

Akçelik, which continues to supply and sell high-quality steel for many years in line with customer demands, has taken its place among the leading companies of the sector by building up production, sales, and storage facilities in 7 locations in Turkiye, 1 in America and 2 in Europe, taking into account sectoral needs and company targets.

Akçelik, which has an annual production capacity of 215,000 tons with its recent investments, continues its activities with an operational area of 150,000 m2 and a stock capacity of 60,000 tons.

1978

Mission

To deliver top-quality steel products to its customers on time under the most competitive conditions based on the principle of operational excellence with its suppliers as solution partners.

Vision 2027

With our uncompromising understanding of quality, to be the leading private steel company that meets the expectations and needs of our stakeholders by generating solutions with our technological investments, supply network, and sustainability-oriented and environmental-friendly structure.
